

Christina Almwrite, Software Engineer at Apex Industries, excitedly learns about a new software being implemented at her job that will make it easier to request days off in advance. She swiftly pulls up the webpage as she is planning to take a few days off next month to celebrate her mother's birthday.

Upon accessing the webpage from her computer, she is greeted by an aesthetically pleasing interface that's easy to navigate. She takes a moment to explore the website before she signs up.

Vacation Planner Pro

[About Us](#)[View Calendar](#)[Log In](#)

About Us

Vacation Planner Pro's development process started on January 24th, 2024. The biggest goal for creating this app was to change the way companies manage employee vacation time. With just this one tool, companies big or small will have the ability to track, view, and manage employee time off. Our team's mission is to relieve the stress of double booked vacations or vacation time piling up close to the end of the year.

The Team

Adam Marsh, Catherine Stafford, Cheyenne Rossler-Demskie, Cory Waldheim, Gabriella Romero, Jevaughn Hastings, Geovanny Mora, John Cagle, Kyle Sullivan, Mariia Voianova, Oscar Zandonella, Ruth Zaccardo

Christina notices the "About Us" section. Curious about the inception of her new favorite website, she clicks on it to read about the passionate young entrepreneurs that created this tool. She silently commends them on their hard work. Eager to schedule her days off, she goes back to the homepage.

Christina decides to browse through the application to see what else the Vacation Planner Pro tool has to offer. She mentally notes that she could update her time off requests in the "Update Vacation" section should the need arise.

Satisfied with the ease of use and efficiency of the Vacation Planner Pro tool, Christina logs out of the website.

Christina is delighted! It only took five minutes to request days off using the Vacation Planner Pro. She sends a text to her mother letting her know about her upcoming visit. Christina appreciates the ease of access that allows her to take time off without vocally asking management.
